

In order to take this exam		The following exam must be successfully passed	
Course	Year	Course	Year
Human Anatomy I	1	Cell Morphology and Function	1
Biochemistry, Pharmacology and Human Physiology I			
Human Anatomy II	2	Human Anatomy I	1
Microbiology Immunology and Technical Sciences	2	Biochemistry, Pharmacology and Human Physiology I	1
Biochemistry and Human Physiology II			
Biochemistry and Human Physiology II	2	Human Anatomy II	2
Medical and Surgical Semeiotics and Pathology	3	Microbiology Immunology and Technical Sciences	2
Public health	4		
Pharmacology	4		
Oncology, Genetics and Internal Medicine	5		
Clinical Neurosciences and Mental Health	5		
New Radiology Diagnostic and Therapeutic Modality	5		
Head and Neck Diseases	5		
Dermatology, Plastic Surgery and Infectious Diseases	5		
Bone and Joint and Technologies in Rehabilitation	5	Pathology	3
Patient Management	6		
Pediatrics, Obstetrics and Gynecology	6		
Healthcare Robotics and Active Ageing	6		
Emergency and Life Support and Legal Medicine and Bioethics	6		
Organ System Diseases 2: Kidney and Genitourinary System	4	Organ System Diseases 1: Blood, Heart and Lung; Medical and Surgical Semeiotics and Pathology	4
Organ System Diseases 3: Endocrine and Gastrointestinal Systems, Nutrition and Metabolism	4	Organ System Diseases 2: Kidney and Genitourinary System	4
Patient Management	6	Pharmacology	4
		Organ System Diseases 3: Endocrine and Gastrointestinal Systems, Nutrition and Metabolism	4
