## Facoltà di Medicina e Chirurgia Corso di Laurea Magistrale a Ciclo Unico – Medicine and Surgery

## MINUTES OF STUDY COURSE'S COUNCIL 8th September 2025

On Monday 8<sup>th</sup> September 2025, at 1pm., the Study Course's Council of the Master's Degree Course in Medicine and Surgery took place through Microsoft Teams (link: <u>SCC Medicine and Surgery September 8th, 2025\_1:00pm | Partecipazione alla riunione | Microsoft Teams</u>). The Council was summoned by Professor Simona Magi, President of the Course, via email on 1<sup>st</sup> September, 2025, in order to discuss the following agenda:

- 1. Announcements by the President
- 2. Acknowledgement of the minutes from previous meeting
- 3. Quality Assurance Systems
- 5. Didactic Activity
- 6. Student Practises
- 7. Any other business

At 1:10 p.m. Professor Simona Magi, acknowledging all the justified absences (7), attendances, and the legal number calls the meeting to order.

Jessica Amicucci and Nadia Canonico attend the meeting as administrative support. Professor Maria Gabriella Ceravolo attends the meeting as auditor.

## 1. Announcements by the President

The President informs the Council about the approval of all the e-learning projects submitted by Professors as follows:

| 1. | FRANCESCO PIVA   | CELL MORPHOLOGY AND FUNCTION |
|----|------------------|------------------------------|
| 2. | SIMONA MAGI      | PHARMACOLOGY                 |
| 3. | MARTINA BONIFAZI | ORGAN SYSTEM DISEASES 1      |
| 4. | MONIA ORCIANI    | CELL MORPHOLOGY AND FUNCTION |
| 5. | MATTEO GIULIETTI | CELL MORPHOLOGY AND FUNCTION |

The President continues by reminding all the students about the importance of the compliance with the academic calendar, published in the University website (<a href="https://www.medicina.univpm.it/?q=calendario-didattico-3">https://www.medicina.univpm.it/?q=calendario-didattico-3</a>). It is important that all students are

## Facoltà di Medicina e Chirurgia Corso di Laurea Magistrale a Ciclo Unico – Medicine and Surgery

present during the periods of teaching and professional training activities indicated in the academic calendar.

Professor Magi reminds about the beginning of the lessons, which will be the  $20^{th}$  October for the  $1^{st}$  year and  $22^{nd}$  September for the  $2^{nd}$ , the  $3^{rd}$ , and the  $4^{th}$  year of the Course.

Lectures will be delivered in streaming for those students of the 1<sup>st</sup> year who have not acquired the VISA by the beginning of the lectures and won't be able to attend the lessons in presence.

Recorded lectures and/or e-learning activities will be uploaded to the Moodle platform with restricted access for late-enrolled students, allowing them to recover the activities.

The President reminds about the deadline of the Teaching-Activity Register fill out, which has to be submitted by September 30<sup>th</sup>. Professor Magi continues by informing again about the importance of filling the syllabus related to the monographic courses, which was due by August 31<sup>st</sup>.

Moreover, student representatives have already been informed about the optional courses for the double degree in Biomedical Engineering: for those who would pursue the double degree, it is necessary to attend the Didactic Teachings indicated in the 2<sup>nd</sup> and 3<sup>rd</sup> years course Study Plan: <a href="https://www.medicina.univpm.it/?q=study-plan">https://www.medicina.univpm.it/?q=study-plan</a>. Lessons will start in September. Students will be able to formalize this choice in October, when they will be asked to present their official study plan to the Student Secretariat Office. Professor Magi continues by asking the third-year representatives to share this information also with the second-year students, who will encounter this situation for the first time.

The President informs the Council about the expiration of the term for the following figures:

- -Quality Assurance System Referent
- -President of the Single-cycle Master's Degree Course in Medicine and Surgery

#### 2. Acknowledgment of the minutes from previous meetings

The President submits the minutes of the previous Study Course Council for acknowledgement. The Study Course Council acknowledges.

#### 3. Quality Assurance Systems

Professor Magi continues with the approval of some frameworks of the Annual Monitoring Report (SMA – Scheda di Monitoraggio annuale) and Annual Study Programme Data Sheet (SUA-Scheda Unica Annuale).

The President begins by showing some specific charts of the Annual Monitoring Report:

The President informs that on several occasions, attempts have been made to understand the reasons of these percentages with students, which seems to be primarily related to the existence of integrated courses, which make it more difficult to take the exam. As a potential improvement action, the new Order of the Course has reduced the number of integrated courses, within the limits of the 36 required by ministerial regulations.

The values related to the student-teacher ratio are good and in line with the geographical area. There was a slight decrease in the indicator C27 for the years 2023 and 2024. This is due to the fact that

Tel. 071 2206188 - 6047

## Facoltà di Medicina e Chirurgia Corso di Laurea Magistrale a Ciclo Unico – Medicine and Surgery

#### B6 – STUDENTS' OPINION ON THE PROVIDED TEACHING A.Y. 23-24

The data show overall positive feedback. In particular, regarding questions 1–5, the ratings are above the average reported for other Degree Programs within the Faculty and show an improvement compared to the previous academic year. All courses received over 80% positive feedback. As for questions 6–11, the results are again above the Faculty average and improved from the previous academic year, with more than 87% positive responses for questions 6 and 7 ("Does the teacher stimulate/motivate interest in the subject?" and "Does the teacher explain the topics clearly?").

#### B6 – STUDENTS' OPINION ON SUPPORT SERVICES a.y. 23-24

Questions 1–3 ("Was the study load of the courses during the reference period acceptable?", "Was the overall organization (schedule, exams, midterms, and final exams of the courses during the reference period) acceptable?", "Was the class schedule designed in such a way as to allow adequate attendance and individual study time?") still require attention, as their scores remain below 7. Additionally, some issues related to the wireless network have been highlighted. Compared to the previous academic year, improvements have been observed, as the scores related to air conditioning and the services provided by the student office exceed 7.

The following charts were discussed during the Degree Program Council held on April 24rd, 2025, as documented in the minutes available at the following link:

 $\frac{https://www.medicina.univpm.it/sites/www.medicina.univpm.it/files/SCC\%27S\%20minutes\%2024}{th\%20April\%202025.pdf}$ 

#### C1 - INCOMING, IN PROGRESS, AND OUTGOING DATA

Incoming indicators, regarding career starts, show full coverage of the available seats and are in line with the expectations. The percentage of applicants from other regions is very good. The progress indicators, as already discussed, show a lower percentage of ECFU obtained in the first year of the Course.

#### 4. <u>Didactic Activity</u>

The President continues with the next object of the Agenda, and shows to the members of the Council the names of the course coordinators of integrated modules. Here again, she highlights that the abovementioned coordinators are responsible for reviewing and compiling the syllabus. The deadline for completing the syllabus revision was August 31<sup>st</sup>, 2025.

Professor Magi proceeds with the ratification of Dr. Beatrice Ciabattoni's appointment. In July, during the professional training activities of the 3<sup>rd</sup> year (blood sampling), Dr. Alessia Gaudenzi - who won the selection to serve as laboratory instructor for the aforementioned activity - withdrew from the position. Due to the urgency of the situation and the impossibility of convening a Study Course Council meeting during the ongoing activities, Dr. Beatrice Ciabattoni, who was also a winner of the same selection, was appointed to the role.

The next point regards the coverage of two teaching modules: GEOMETRY - Scientific Disciplinary Sector MATH-02/B, ECTS credits: 5, Total hours: 60, Year: 1st, Semester: 1st; and MATHEMATICAL ANALYSIS - Scientific Disciplinary Sector MATH-03/A, ECTS credits: 7, Total hours: 84, Year: 1st, Semester: 1st.

The two modules were assigned to Professor Girardi, whose contract is now nearing expiration. Unfortunately, no one else was available to take over the teaching of these courses. The Course also reached out to other faculties and issued two contract calls for applications to cover them.

Due to the lack of teaching coverage for these modules, their schedule has been revised from a 1<sup>st</sup> semester offering to an annual one. This change will enable the course to be delivered also in the second semester, if necessary.

The Council approves the change of the study plan.

Professor Davide Sartini intervenes, agreeing with Professor Magi regarding the actual sustainability of the Master's Degree Program, given the difficulties encountered and the already significant teaching commitments of the Professors involved in the Medicine and Surgery (ITA) Couse. In this regard, the Professor asks what portion of the teaching load is covered by the Faculty of Engineering,

# Facoltà di Medicina e Chirurgia Corso di Laurea Magistrale a Ciclo Unico – Medicine and Surgery

since the Medicine and Surgery program is an interfaculty course that also allows, optionally, for the attainment of a second degree in Biomedical Engineering.

Professor Magi responds, stating that several courses over the past months have been partially covered by the Engineering staff and partially through contract calls. The same situation occurred with the monographic courses, as this year it was not possible to deliver those in engineering - only the medicine-related ones will be offered.

The President continues by expressing a great concern about the situation and emphasizing that the two courses represent a significant number of hours within the first-year curriculum.

Professor Alessandra Giuliani speaks, emphasizing that the two uncovered courses require a specific set of skills that is difficult to cover through an external contract. She also highlights the fact that it is very challenging to structure a degree program without stable teaching staff for the fundamental courses of the first years.

Professor Micaela Morettini speaks, referring back to Professor Sartini's comment and emphasizing that the Faculty of Engineering has always supported the Faculty of Medicine since the establishment of the Master's Degree program. She cites the example of the ING-INF/06 sector, which has consistently been covered by the Faculty of Engineering, including through fixed-term researchers (RTD-A).

Professor Giorgia Fattorini speaks, asking whether it would be feasible to make all 1<sup>st</sup> year courses annual, in order to avoid an overload of hours in the second semester of the first year, given that these courses will likely remain uncovered in the first semester.

Professor Magi responds that the suggestion can be considered but highlights the fact that the second semester of the first year has already been lightened under the new Order of the curriculum.

Another possibility could be to deliver the two courses in online format (asynchronous) or to seek collaboration with foreign faculties.

Professor Giovanni Girardi speaks, pointing out that the issue is also due to the fact that there are no degree programs or PhD courses in mathematics in Ancona. He goes on by informing that the faculty members of his department already have a very heavy teaching load.

The President continues, as already mentioned, that for the academic year 2025-2026, all the monographic courses offered will be only the ones of the medical field.

## Facoltà di Medicina e Chirurgia Corso di Laurea Magistrale a Ciclo Unico – Medicine and Surgery

Professor Magi continues by reminding the Council that the new Order of the Master's Degree, beginning with the coort A.Y. 2025-2026, has introduced the internship. The internship will cover 8 ECTS and will be divided as follow (1 ECTS = 25 hours):

- 2 ECTS for the Italian language course (for non-Italian students to be done in the 1<sup>st</sup>-2<sup>nd</sup> year of the Course)/clinical English course (for Italian students to be done probably in the 5<sup>th</sup> year, with a possible shared teaching arrangement with the Italian-taught Medicine Master's Degree program);
- 2 ECTS for basic subjects/Engineering (to define);
- 4 ECTS for clinical subjects.

The Council approves.

#### 5. Student Practises

No points on the agenda.

#### 6. Any other business

Professor Magi informs about the issue raised by Professor Monia Orciani regarding the PTA recovery of Histology  $-1^{st}$  year, which took place in September for those students who arrived late in Italy due to Visa issue. Only 4 out of 8 students were able to attend the recovery, as the remaining 4 students have not yet arrived in Italy.

For this reason, Professor Magi proposes to include these students in the PTA sessions that will be regularly held for students enrolled in the 2025–2026 A.Y. (2<sup>nd</sup> semester).

The President concludes by informing that the next Council will be the first week of October, probably the 7<sup>th</sup>, in order to discuss about the Quality Assurance System Referent and the President of the Single-cycle Master's Degree Course in Medicine and Surgery renewal. Elections will be held online on October 14<sup>th</sup>.

Having nothing more to discuss, the Study Course Council closes at 2.05 p.m.
